GITHUB PROJECTS

My projects available on GitHub:

- **Complete-Responsive-Website:** A modern website built with HTML, CSS, and JavaScript, featuring a responsive design and user-friendly hamburger menu for easy navigation on any device.
Project link: https://unnatshrestha1.github.io/Complete_Responsive_Website/
- **Text Manipulation Webapp:** Boost productivity with this sleek React app. Quickly manipulate text by counting words and characters, formatting spacing, and toggling between uppercase and lowercase.
Project Link: <https://github.com/unnatshrestha1/textminesupercopy>
- **Notebook App:** A full stack app which is used for managing personal notes on the cloud.
Project Link: <https://github.com/unnatshrestha1/inotebookapp>
- **Redux App:** A redux based simple application which allows you to deposit or withdraw your money enabling you to update your money balance.
Project Link: <https://github.com/unnatshrestha1/redux>
- **Portfolio Website:** A simple personal portfolio website mentioning about my education, skills and projects.
Link To The Website: <https://unnatshrestha1.github.io/portfolio-website/resume.html>
